Dear Peggy

What a superb party -
how glad & proud I am to have
been asked to it. I am starting,
from today, to look forward
to your golden wedding & hope
the time will pass quickly.

It was
most gracious of Fernon to look
so like my portrait - only
better. Nature always does excell
herself when she sets out to copy
art! I looked longingly at the
Garden & beautifully mown

Lawns & The rain, it should
have been fine but I remembered
the remnant of another disappointed
host on seeing his munched
Sunder on the night of a fête, "how
like God!"

With many thanks & best
wishes for you both & Rodney
Yours very sincerely
Roy de Maistre

The Gardeners were very kind - I
hope to meet them again - &
Please let me know some evening if
you & Penon are driving in town &
come here for a drink first,
